

HESI COCO

HESI COCO is THE fertilizer for growth and bloom on coco substrates..

Like any **HESI fertilizer** is also **HESI COCO** thanks to complex-binding substances stabilized and free of unnecessary fiber.

HESI COCO is not an A & B supplement, the A & B components are combined in one bottle !!!

HESI COCO contains both organic and mineral nitrogen. All trace elements are stabilized in protective complexes.

HESI COCO is enriched with vitamins and other vital elements for the bloom. In this way, a perfect balance is created in the system and a fast build up a healthy microflora.

It is quite possible that the EC value of **HESI COCO** is somewhat lower than other coco supplements because no salts have been added, which only increase the EC value (fillers, fibers).

To avoid overdosing, it is important that the maximum dosage of 50 ml / 10L is not exceeded.

Composition: NPK 3 + 4 + 5

nitrogen 3.0% N, phosphorus 3.9% P₂O₅, potassium 5.1% K₂O
and other: magnesium, calcium, sulphate

trace elements: iron, manganese, zinc, copper in EDTA-chelated form, boron, molybdenum
plus vitamins B1, B2, B6, plant sugars and amino acids.

Package sizes: 500 ml / 1 Liter / 5 Liter / 10 Liter / 20 Liter
